More than 1 year of experience as a Software Developer. In my current role at VolcanoTech, I have led the Frontend development, achieving a 40% improvement in user experience, a 25% increase in web performance, and a unified platform.

PROFESSIONAL EXPERIENCE

VolcanoTech

FullStack Developer

Colima, México

Oct 2023 – Present

- Developed efficient backend solutions for route handling, request management, and database connections, enhancing system stability and performance.
- Optimized code quality using SOLID principles, improving software delivery, reducing errors, and allowing for easy project scalability.
- Created detailed designs in Figma that serve as the basis for interface development, ensuring consistency and an optimized user experience.
- Provided innovative solutions to improve web performance on VolcanoTech's management platform, utilizing Socket.IO connections to optimize traffic between requests, reducing by 50%, and ensuring more efficient and real-time communication.

BrightCoders

FullStack Developer

Colima, México

May 2023 - Oct 2023

- Developed a Twitter clone, implementing all key features such as posting, commenting, liking, sharing, following, notifications, authentication and verification.
- Integrated the MVC architecture to improve project development, maintenance and scalability.
- Implemented Ruby On Rails with Postgres, ensuring scalable and robust code.

Danone Hackathon México

Frontend Developer

Colima, México

June 2023

- Developed and configured the database using a CMS like Contentful, ensuring efficient and centralized content management.
- Implemented TypeScript to improve the structure and robustness of the code, and integrated the Atomic Design methodology to divide components, achieving more modular, maintainable and scalable code.
- Integrated unit test using Jest to ensure that components function correctly and maintain the expected behavior, improving code reliability and quality.

EDUCATION

UNIVERSIDAD DE COLIMA

Software Engineering

Graduated with distinction and certified through the EGEL exam.

Colima, México

June 2023

ADDITIONAL SKILLS

- Native in Spanish. Intermediate English (B2).
- Punctuality, teamwork, adaptability and flexibility.
